

Write $2\frac{2}{5}$ as a decimal number

Write 3,7 as a mixed number

Calculate $\frac{2}{7} + \frac{3}{7} + \frac{4}{7} + \frac{1}{7}$ and $3\frac{5}{8} - \frac{7}{8}$

Jane saves $\frac{1}{20}$ of her pocket money. How much pocket money does she get if she saved R7,50?
